4.4 Purpose of the disclosure

4.5 Follow up made/needed/or requested

If multiple disclosures are made to the same person/entity for the same purpose, it is sufficient to list all required information for the first disclosure, and then specify the number or frequency of disclosures, and date of the last disclosure.

5. The request must be responded to within 60 days. However, if the Covered Entity is unable to respond to the request in 60 days, the response time may be extended one time by up to 30 additional days. In this case, the Covered Entity must notify the patient/client within the original 60-day deadline of the date by which the Covered Entity will respond to the request, and the reason for the delay.
6. The patient/client is entitled to one accounting of disclosures without charge during any 12-month period. A reasonable cost-based fee may be charged for additional accountings.
7. If there are disclosures to a health oversight or law enforcement agency that must be accounted for, the patient's/client's right to receive a listing of disclosures may be temporarily suspended upon request of the agency, for no more than 30 days.
8. Accounting of disclosures of PHI in the research context involves additional documentation.
